FTC-111 Cooling Water Treatment

MARKEM
Special Chemicals & Lubricants

Markem™ **FTC-111 Cooling Water Treatment** is composed of sequestering agents, polarizing materials, dispersants and anti-film, and foaming agents, which provide an extremely powerful corrosion- and scale-inhibiting effect. It also provides dispersancy for iron oxides and airborne particulate matters.

Application

Markem FTC-111 Cooling Water Treatment can be applied directly on the water or through the use of proportions recommended in your water analysis.

Benefits

- Increase cooling and heating system efficiency
- Passivates heating system to prevent further corrosion
- Safe to use
- Does not harm the surfaces of the metal

Typical Physical Properties

Color
Light Yellow

Odor
Odorless

pH
2.47

Specific Gravity at 250C
1.02

Solubility
Soluble in water, Insoluble in most solvent

Form
Liquid

Available in the following packaging:

1-Liter Bottle / 4-Liter Gallon / 20-Liter Pail

Our engineers and representatives are always available to provide the necessary assistance to satisfy your requirements.
