### FTC-111 Cooling Water Treatment

Markem™ **FTC-111 Cooling Water Treatment** is composed of sequestering agents, polarizing materials, dispersants and anti-film, and foaming agents, which provide an extremely powerful corrosion- and scale-inhibiting effect. It also provides dispersancy for iron oxides and airborne particulate matters.

#### Application

Markem FTC-111 Cooling Water Treatment can be applied directly on the water or through the use of proportions recommended in your water analysis.

#### Benefits

- Increase cooling and heating system efficiency
- Passivates heating system to prevent further corrosion
- Safe to use
- Does not harm the surfaces of the metal

#### Typical Physical Properties

**Color**

Light Yellow

**Odor**

Odorless

**pH**

2.47

**Specific Gravity at 250C**

1.02

**Solubility**

Soluble in water, Insoluble in most solvent

**Form**

Liquid

#### Available in the following packaging:

1-Liter Bottle / 4-Liter Gallon / 20-Liter Pail
