FTC-112 Algaecide

Markem™ **FTC-112 Algaecide** is a concentrated compound formulated to effectively control growth of algae, fungi, bacteria-induced slime and other microbial growth in industrial recirculating water.

Application

Markem FTC-112 Algaecide is used for the control of algae, bacteria and fungi in commercial and industrial recirculating cooling water systems. This product can be used to assist in cleaning biologically-fouled systems.

Benefits

- Effective over a broad pH range
- Compatible with alkaline inhibitor
- Easy to apply and non toxic

Typical Physical Properties

Color
Clear Liquid

Odor
Mild Odor

pH at 25.0°C
5.41

Specific Gravity at 250C
1.03

Solubility
Soluble in water, Insoluble in most solvent

Form
Liquid

Available in the following packaging:

1-Liter Bottle / 4-Liter Gallon / 20-Liter Pail

Our engineers and representatives are always available to provide the necessary assistance to satisfy your requirements.
