FCT-112A Microbiocide

MARKEM Special Chemicals & Lubricants

Markem™ **FCT-112A Microbiocide** is a powerful blend of two broad-spectrum microbiocides that effectively inhibits the growth of algae, slime-forming and sulfate-reducing bacteria in recirculating water systems. It is very effective over a broad pH range.

Application

Markem FCT-112A Microbiocide is used to control algae, bacteria and fungi in commercial and industrial recirculating cooling water systems. This product can be use to assist in cleaning biologically-fouled systems.

Benefits

- Compatible with alkaline inhibitors
- Effective over broad pH levels

Typical Physical Properties

Color
Clear Liquid

Odor
Mild Odor

pH
12.7

Specific Gravity at 250ºC
1.07

Solubility
Soluble in water, Insoluble in most solvent

Form
Liquid

Available in the following packaging:

1-Liter Bottle / 4-Liter Gallon / 20-Liter Pail
