High-Temperature Grease NLGI-2

Markem™ **High-Temperature Grease NLGI-2** is a high-temperature grease made with an inorganic thickener and heavy paraffinic base oil. It is designed for the lubrication of plain and rolling contact bearings operating at high temperatures. It is water-resistant and has good corrosion-protective properties.

Benefits

- Longer bearing service life
- Less equipment downtime

Typical Physical Properties

NLGI Grade

2

Color

Red

Odor

Odorless

Worked Penetration @ 25°C

265 - 275
