### Rust Converter

Kevlon™ **Rust Converter** is a superior fast-acting concentrated liquid that changes rust deposits into impenetrable phosphate layer with excellent adhesion to metal surfaces. It has a special penetrating agent that increases its ability to dissolve rust and prevents further build-up. Its bonderizing power transforms rust deposits into inert phosphate layer to enhance paint adhesion.

#### Application

Degrease metal before treatment. Apply Rust Converter by dipping or brushing and let it stand for a few minutes. Rinsing with water is recommended prior to painting. Can be diluted with water according to use.

#### Benefits

- Excellent adhesion
- Economical and easy to use
- Corrosion resistant

#### Typical Physical Properties

**Color**

Clear

**Odor**

Mild

**pH @ 29.6°C**

1.0 - 2.0

**Specific Gravity**

1.1 - 1.3

**Solubility**

Soluble in Water; Insoluble in Most Solvents

**Flammability**

Non-flammable

**Form**

Liquid

**Toxicity**

Toxic

#### Available in the following packaging:

1-Liter Bottle / 4-Liter Gallon / 20-Liter Pail / 400-Liter Drum

Our engineers and representatives are always available to provide the necessary assistance to satisfy your requirements.
