

# Safety Solvent Degreaser (Fast-Dry)

Kevlon™ **Safety Solvent Degreaser (Fast-Dry)** is a non-flammable solvent degreaser formulated for cleaning electrical equipment, machineries, whether dismantled or not. It dries fast, leaves no residue and no flash point. It has an ideal evaporation rate for thorough degreasing action and prevents moisture condensation on the cleaned surfaces. Further, it prevents combustion common with other solvent degreaser.

## Application

Application is done by spraying or brushing into an accessible portion of equipments, tanks and other parts. Immersion or swabbing may be used. Allow the surface to dry. After cleaning the surface, hose off with compressed air to remove loosened dirt, grease and other particles.

## Benefits

- Non-conductive, non-corrosive on metals, and non-flammable
- Residue-free

## Typical Physical Properties

### Color

Colorless

### Odor

Mild

### Specific Gravity

1.32 - 1.45

### Solubility

Insoluble in Water

### Toxicity

Avoid Excessive Inhalation

### Form

Liquid

## Available in the following packaging:

1-Liter Bottle / 4-Liter Gallon / 20-Liter Pail / 400-Liter Drum
